SENTINELAI INCIDENT RESPONSE REPORT

=====

Investigation ID : 1

Title : Suspicious SSH Authentication Activity

Generated : 2026-07-24 23:12:42

=====

EXECUTIVE SUMMARY

=====

The uploaded authentication logs were analysed for security events. The investigation identified potential security findings requiring analyst review.

=====

INCIDENT FINDINGS

=====

No security findings detected.

=====

INCIDENT RESPONSE WORKFLOW

=====

1. Detection
2. Alert
3. Investigation
4. Response
5. Recovery
6. Closure

=====

GENERAL SECURITY RECOMMENDATIONS

=====

- Enable Multi-Factor Authentication (MFA).
 - Monitor repeated authentication failures.
 - Restrict SSH access to trusted IP addresses.
 - Review privileged account activity regularly.
 - Maintain centralized logging and continuous monitoring.
